Task 1

I can explain how sound travels

Cut out these pictures with their captions and stick them in the correct order in the boxes above.

--	--	--	--	--

The vibrations are changed into electrical signals and sent to your brain. Your brain tells you that you are hearing a sound!

Vibrations pass from the sound source to particles in the air around it.

The vibrations reach your ear, and pass into your ear.

The sound source begins to vibrate.

The vibrations pass from particle to particle.
