

4.5 DINNER SERVICE

Objective: Multiplication.

Instructions

1. A full dinner service place setting looks like the one in the picture provided. Count the number of items and do that many sit ups
2. If you were organising a banquet for 12 guests how many pieces of cutlery would you need altogether? How many items would you need to set the table for everyone altogether?

Challenge

How many items would you need for 18 guests altogether? 24? What about your class?
