

Dear Parents/Carers,

The Robins team need your help!

Our outside area is looking tired and is in need of a revamp to provide the very best learning environment for your children.

We are going to start to enhance our outside area by purchasing a new mud kitchen and reading shed.

We are really hoping for some handy individuals to help us put these items together.

We would also like support varnishing these items and painting some of our current wooden cupboards.

If you are available on **Saturday 23rd March from 9:30am** and are up for the challenge then please let us know.

There are lots of little bits that we would really like to add to our environment, if you are having a little bit of a clear out please could we possibly have:
