

# Sheet Primary School School Improvement Plan

2024 – 2025

## Our Priorities 2024/25

### 1. Improve foundation subject planning, teaching & learning

-Teachers develop a greater understanding of the whole school curriculum in each subject including what has come before and after

- Teachers can articulate the key knowledge, skills, and concepts for their year group/subject

- Teachers and pupils can clearly communicate the key knowledge and skills learnt in each subject

Develop a curriculum review and revisit document that outlines the sequence and progression of reviewing and revisiting

- Incorporate cultural capital opportunities into the curriculum and extra-curricular activities

Develop assessment criteria and tools that align with the curriculum sequence

### 2. Continue to drive for a strong provision for pupils with PP and SEND

The planning, teaching, learning and support for children displaying barriers to their learning is consistently well delivered enabling children to make good and better progress.

### 3. Continue to drive for a strong provision in Maths and English teaching and learning

The planning, teaching, learning and support for children is consistently well delivered enabling **all** children to make good and better progress.

### 4. Continue to embed a consistent approach to mental health and healthy digital habits for the whole community

There is a whole school approach to mental health and well-being which is reflected in our behaviour policies and pastoral support. We engage with staff, pupils and parents/carers in developing a positive culture on digital habits, mental health and wellbeing.
