

Sheet Primary School School Improvement Plan

2022 – 2023

Our Priorities 2022/23

1. Develop a strong provision for pupils with SEND - Outcomes

The planning, teaching, learning and support for children displaying barriers to their learning is consistently well delivered.

Focus on: Neurodiversity, Dyslexia, Speech, language & communication, trauma informed practice, SEMH & ADHD.

2. The curriculum offer - Outcomes

The curriculum in Year R/1/2 provides a seamless infant curriculum which enables all children to grow and prosper in all their year groups.

The curriculum for each subject is understood by all. The curriculum is a consistently well planned progression model, enabling pupils to be ready for the next stage of their education. Pupils know and understand more as they progress through the school. Subject leaders are active in the implementation and monitoring of improvements of their curriculum area and know it well

3. Develop and embed a consistent approach to maths teaching and learning - Outcomes

The maths curriculum is well thought out and planned for and marked so that all pupils, irrespective of their starting points, achieve well. They build securely upon what they already know, understand and can do.

4. Develop and embed a consistent approach to English teaching and learning - Outcomes

The English curriculum is well thought out and planned for and marked so that all pupils, irrespective of their starting points, achieve well. They build securely upon what they already know, understand and can do.
